

AIRGO® 2.0

Big Ass Fans' unrivaled air superiority brings its ground game.

BUILT FOR THE DAILY GROUND AND POUND

Our largest mobile fan, AirGo 2.0 uses the same high-volume, low-speed (HVLS) technology as our overhead fans to deliver huge amounts of airflow with energy-efficient performance. With a direct-drive motor, AirGo 2.0 operates at a whisper, not a roar. Use it both indoors and out to keep people cool and comfortable and odors, pests, and heat at bay. Setup is simple—just attach casters and it's ready to roll for portable cooling that can be felt up to 120 feet (36.6 meters) away!

COMMON APPLICATIONS FOR AIRGO 2.0:

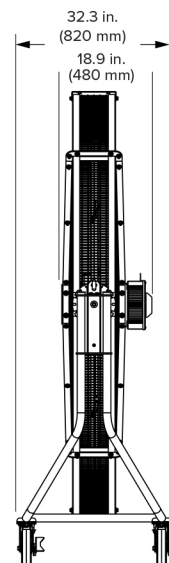

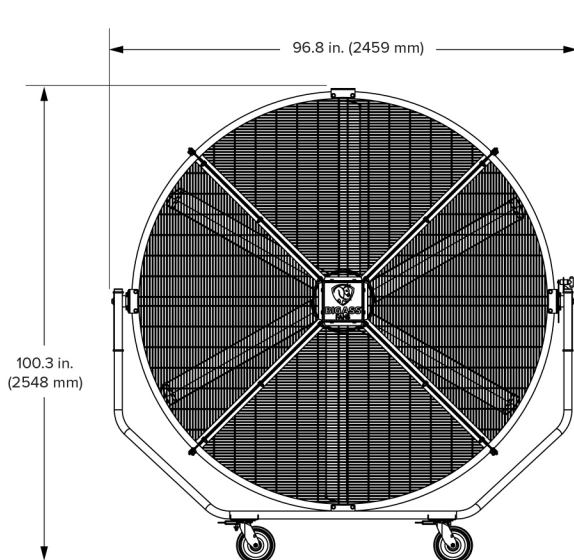

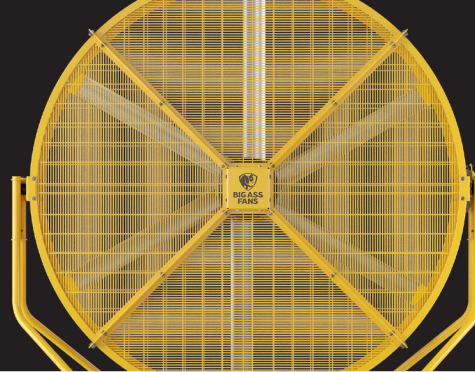

- ✓ Recreational and fitness spaces
- ✓ Mobile work zones
- ✓ Large, open spaces

AIRFLOW

AIRFLOW VELOCITY

The three lines show air velocity from the center of the fan at three sensors of varying height.

AIRFLOW DISTANCE

Shaded areas represent cooling up to 120 feet (36.6 meters). That's one-third the length of a football field! Darker shading indicates faster air velocity.
